

# Adult Education - Israel Current Events

Do you find it challenging to talk about Israel? Are disagreements over Israeli and U.S. policy dividing your community?

There is another way. As Jews, we have much more in common than our minor points of contention. We can unite our community against the assault on Israel's legitimacy, while respecting and learning from different voices and views.

Come explore the facts, consider different views, and express your own opinions in an informal and safe environment. There is a different topic each month, with optional pre-reading materials available.

## Wednesdays

12:00 - 1:30PM

March 5, 2014

April 2

May 7

June 11

## Thursdays\*

7:00 - 8:30PM

March 6

April 3

May 8

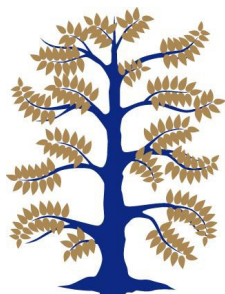

June 12

\* The Thursday sessions are repeats of the Wednesday sessions.

Nebet Basker is the founder and director of Broader View, an Israel resource center. Born and raised in Israel, Nevet moved to the U.S. and enjoyed a successful career as a high-tech manager. Inspired by a love of Israel and concern for the future of the Jewish people, she has become a powerful and *inclusive* voice in the fields of education, public speaking, and political activism on modern-day Israeli and the Israeli-Palestinian conflict.

*"Attending a talk or a workshop by Nevet Basker is a life-changing event. She has a special talent for gathering in people from all sides of the ideological spectrum and uniting them through education, understanding and shared values. Her insights are bold, surprising and new, and help guide those in attendance through the maze of Israel - Palestine issues to see the essential truths more clearly than ever before."* - Robert Wilkes
